Cunard's ocean liner, Queen Mary 2, is the largest, longest, tallest and widest passenger ship ever realized. It is fitting that this should be so, because Cunard Line has a long tradition of creating ships which command the superlative in comparison to all others. Standing beside this majestic ship at quayside, visitors will behold a structure as tall as a 21-story building. She is over a hundred feet longer than the Eiffel Tower is tall, over four city blocks in length. If she were afloat in the pool at the foot of Niagara Falls, her stack would rise over twenty feet above the rim. Cristallux has delivered various lighting fixtures according to custom design specification for the »Queen-Mary 2«.

Standfixtures and Backlite ceiling panels

HOTEL MARIOTT CITY CENTER

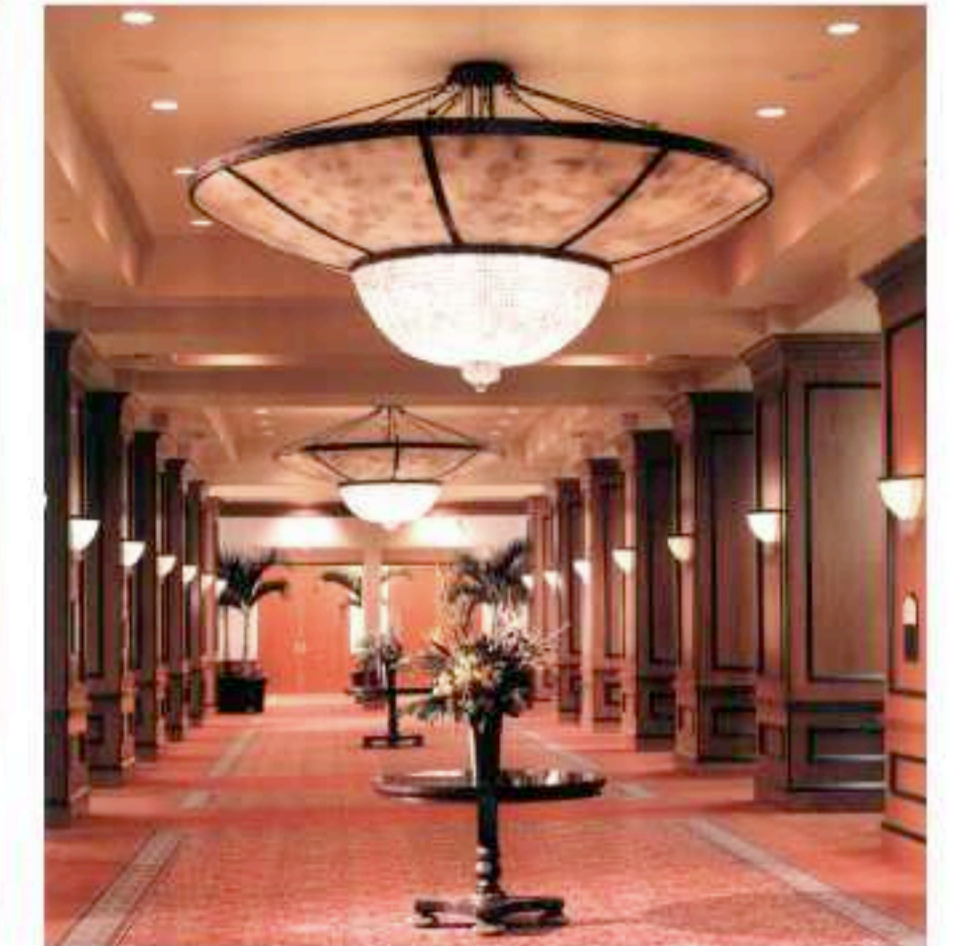

Salt Lake City

The Marriott City Center ist the first new full-service hotel to open in downtown Salt Lake in 14 years. The 12-storey hotel features 359 rooms, including 16 suites, two private concierge floors and 22 000 square feet of conference space. Designer

Claudette Bonville says "I wanted everything to be unique. Among the many custom elements she specified were several chandeliers with coordinating wall fixtures from cristallux - certainly not something you just can order out of a catalog".

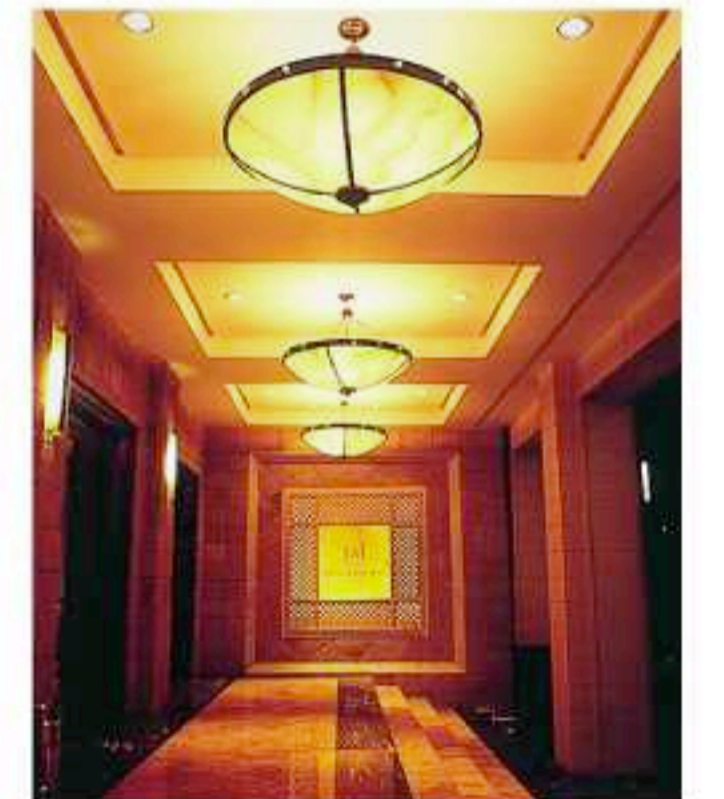

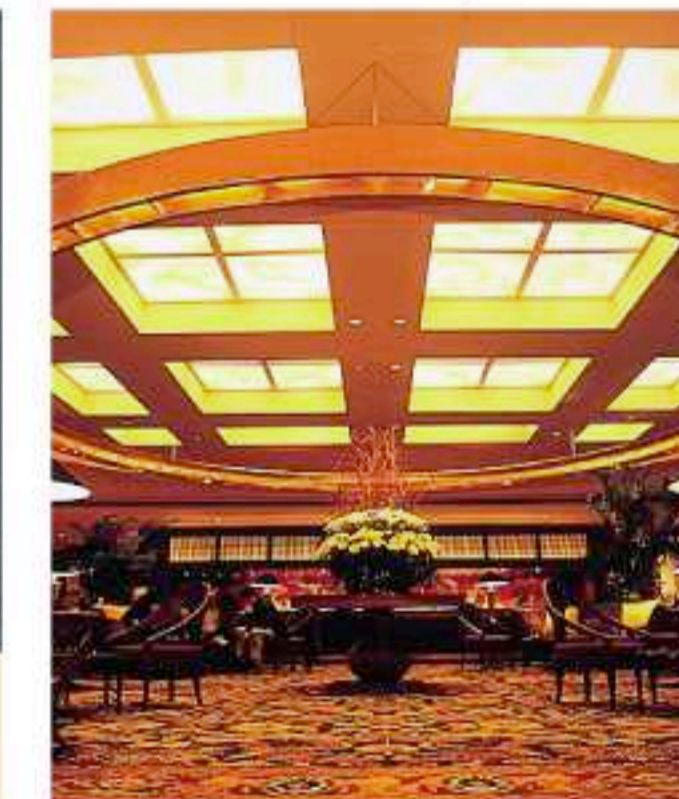

Lobby: Custom made Onyx Alamar Chandeliers and wall sconces

Pre-Funktion area: Custom Onyx Alamar and Empress Crystal basket with Custom made matching wall sconces

HOTEL TAJ MAHAL

Mumbai

The Taj Mahal Palace & Tower has an old-world Heritage Wing and a contemporary Tower Wing, offering 582 rooms and 49 suites. The hotel's premium suites have been used by royalty and Heads of State.

Cristallux has realized the interior architects wishes, using various types of Alamar Materials in the ceiling as well as with the lighting fixtures.
