

# TV METERS *catalogue*

2013

THE MOST INNOVATIVE  
TV METERS  
FOR DIGITAL TELEVISION

Designed and manufactured  
in our plant of Saint-Etienne (France)

**Sefram**  
INSTRUMENTS & SYSTEMES

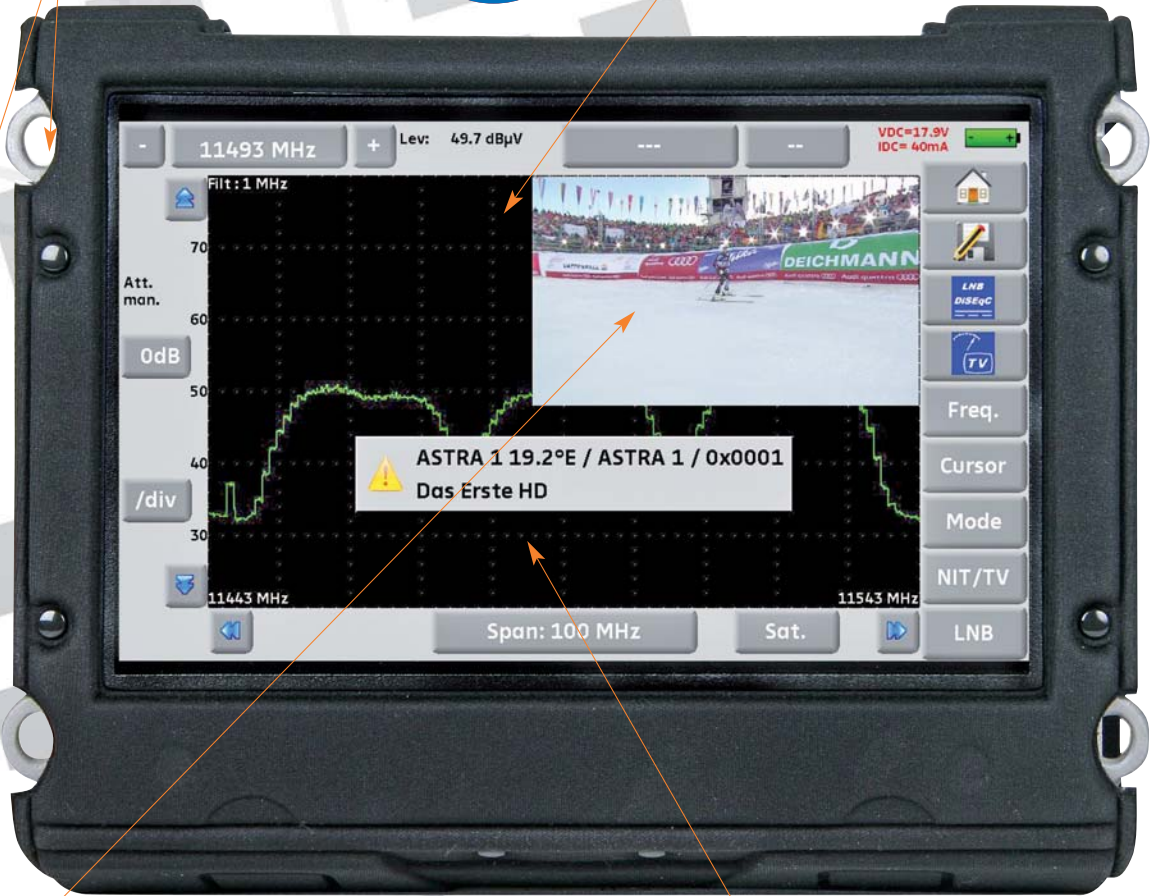

# Sefram 7870 series

*The feeling of a new way of measurement*

*New aluminium housing with excellent robustness*

**2** YEARS warranty

*10 inch panoramic touch screen*

*HD TV decoding for all standards*

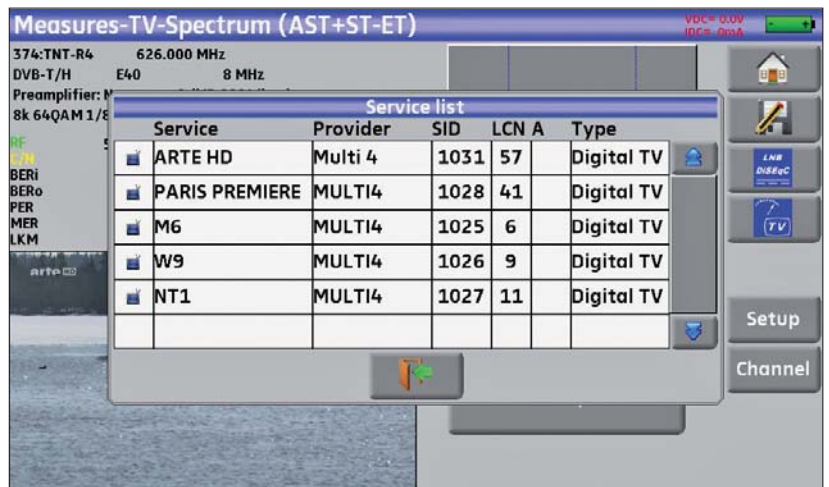

*High brightness which makes reading possible under all circumstances*

*The "hands free" system allows you to perform all the measurements in challenging situations.*

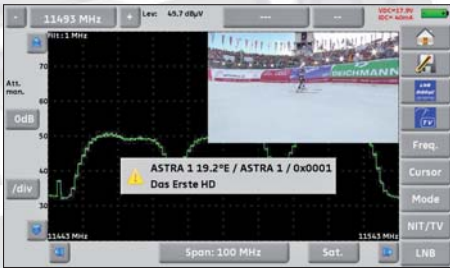

*A carrying bag is supplied for better protection and perfect mobility.*

*Split screen: you just need a single screen to view all measurements, TV picture and spectrum.*

# SEFRAM 7871, 7872, 7875, 7876

The feeling of a new way of measurement

Spectrum analysis from 5 to 900MHz, to view all spurious and signals.

LTE function : simulate the effect of a LTE rejection filter.

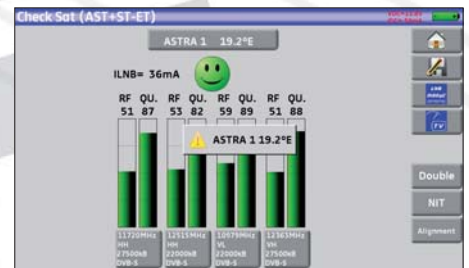

Real time echoes and pre-echoes display, with zoom.

MER per carrier measurement, for each carrier of a multiplex.

All measurements displayed in one screen, with spectrum.

Checksat mode, with NIT. Fast and accurate!

Electronic compass for dish alignment.

# Sefram 7860 series

MER versus carrier (real time)

Spectrum analysis in "expert" mode for adjacent channels investigations.

GPS function  
For 7866HD-T2, to map your measurements.

Constellation pattern :  
The real time constellation diagram is provided in DVB-T, DVB-T2, DVB-S, DVB-S2 and DVB-C. It includes a zoom and the refresh period is programmable.

Echo guard interval :  
Display of echoes, pre-echoes, guard interval with zoom capability.

Carrying pouch for accessories  
P/N: 978656500  
Option for 7861HD-T2 and 7862HD-T2  
Supplied with 7865HD-T2 and 7866HD-T2

## Sefram 7861HD-T2 and 7862HD-T2 :

- Frequency range : 45MHz to 2150MHz
- Full measurements for all modulations : QPSK, 8PSK, C-OFDM, MPEG-2 and MPEG-4
- Power, BER, MER for digital terrestrial TV, starting at 35dBuV

## Sefram 7861HD-T2 Sefram 7862HD-T2

- MER versus carrier
- Echoes and pre-echoes
- Display HD TV programs for all standards.

## Recommended accessories for 7860 series

Car cigarette lighter  
P/N : 978361000

Deluxe carrying pouch  
P/N : 978360000

## KIT TR7836 : Application software for TV Meters

7861HD-T2, 7862HD-T2, 7865HD-T2  
7866HD-T2

P/N : TR7836

## Wi-fi networks measurement

With the optional adaptor dedicated to 786X series, you can easily control the Wi-fi networks.

### Measurements provided :

- Wi-fi channel
- Frequency
- Maximum symbol rate of the network
- Power measurement (dBm)

P/N : 978651000

# SEFRAM 7846, 7847

## TV Meter for digital terrestrial TV and digital satellite TV

Sefram 7847 :  
DVB-T2

Display free-to-air  
HD TV programs

Sensitive  
encoding  
wheel

Sensitive  
keypad

Enforced  
housing for  
extensive field  
use.

All measurements can be stored on a USB memory stick.

Complete digital measurements (BER, MER) in DVB-T, DVB-S, DVB-S2. Includes DVB-T2 for Sefram 7847.

Fast spectrum analysis : a powerful tool for adjacent channels and spurious investigations.

Constellation pattern in DVB-T, DVB-S, DVB-S2. Includes DVB-T2 for Sefram 7847.

Echoes in DVB-T with zoom and guard interval display. Includes DVB-T2 for Sefram 7847.

7808: Checksat mode with NIT. The satellite identification makes the alignment of dishes free of error.

Echoes/ Impulse response in DVB-T (7806) with zoom and guard interval display. Includes DVB-T2 for 7809.

# Solutions for fiber networks

## SEFRAM 7940

### Optical power meter

- Optical power measurement in dBm or mW
- 5 wavelengths available: 850nm, 980nm, 1300nm and 1550nm
- Insertion loss measurement
- Panoramic LCD with backlight
- Auto power-off

Specifications	SEFRAM 7940
Display	graphical LCD with backlight
Wavelength	850, 980, 1300, 1550 nm
Dynamic	-50 to +26dBm
Accuracy	linear: 0.1% - non linear: 0.01dBm

**Supplied with :** batteries, manual, protective holster, carrying pouch, connectors.

## SEFRAM 7951

### Optical light source

- Provides 2 wavelengths for single mode fiber
- Output modulated
- Compact housing with protective holster
- Easy-to-use

Specifications	SEFRAM 7951
Display	graphical LCD with backlight
Wavelength	1310, 1550 nm
Output power	-7dBm

**Supplied with :** batteries, manual, protective holster, carrying pouch, connectors.

## SEFRAM 7951M

### Optical light source for Multi-Mode.

- Provides 2 wavelengths (850 and 1300 nm) for multi-mode fiber

## SEFRAM 7950

### Visual fault finder

- Low cost solution for testing the continuity of fibers
- Laser source with 650nm (visible)
- CW or pulse mode
- Robust metal case

Specifications	SEFRAM 7950
Output wavelength	650 ± 10nm
Output power	3mW
Pulse mode	2-3 Hz

**Supplied with :** batteries, manual, carrying pouch

Optical fiber not supplied
